### Objectives and topics

The WebSys 2020 Special Session at the 12th International Conference on Computational Collective Intelligence (ICCCI 2020) is devoted to the methods of Web systems analysis and intelligent processing of multimedia in the Web. The aim of this special session is to offer an opportunity to exchange ideas, opinions and experiences, to present current research results, as well as to stimulate new solutions. The scope of the WebSys 2020 includes, but is not limited to the following topics:

- Big Data
- Computer Vision
- Designing Web Interfaces
- Digital Image and Video Indexing and Retrieval
- Distributed Repositories in Digital Libraries
- Graphic Web Systems
- Human-Computer Interaction
- Intelligent Processing of Digital Images and Videos
- Intelligent Web Systems
- Intelligent Multimedia Systems
- Multimedia and Other Web Services
- Multimedia Content Management Systems
- Quality Web Systems: Performance, Security, and Usability
- Recommender Systems
- Semantics in Web Services
- Web Information Systems
- Web Services Applications
- Web Services Data and Grid Applications
- Web Services Indexing
- Web Services Technologies
- Web Services Verification
- Web Services-Based Mobile Applications
- Web Services-Driven Business Process Management
- Web Site Design Methods and Evolution
- Web Systems Development
- Web Systems Community
- Web Traffic Optimization
- Web 2.0 Systems
- Web Systems Engineering

## Submission

All contributions should be original and not published elsewhere or intended to be published during the review period. Authors are invited to submit their papers electronically in pdf format, through EasyChair. All the special sessions are centralized as tracks in the same conference management system as the regular papers. Therefore, to submit a paper please activate the following link and select the track: **WebSys 2020: Special Session on Intelligent Processing of Multimedia in Web Systems**  
<https://easychair.org/conferences/?conf=iccci20200>

Authors are invited to submit original previously unpublished research papers written in English, of up to 12 pages, strictly following the LNCS/LNAI format guidelines. Authors can download the Latex (recommended) or Word templates available at [Springer's web site](#). Submissions not following the format guidelines will be rejected without review. To ensure high quality, all papers will be thoroughly reviewed by the WebSys 2020 Program Committee. All accepted papers must be presented by one of the authors who must register for the conference and pay the fee. The conference proceedings will be published by Springer in the prestigious series LNCS/LNAI (indexed by ISI CPCI-S, included in ISI Web of Science, EI, ACM Digital Library, dblp, Google Scholar, Scopus, etc.).

## COVID-19 pandemic issues

The ICCCI 2020 organizing committee decided to firmly organize the conference on the scheduled date from November 30 to December 3, 2020 on-site in Da Nang.

If, due to the COVID-19 pandemic, any of the authors will not be able to come to Vietnam, the organizing committee will provide them with the opportunity to present their papers online.

However, if the restrictions do not allow to organize a conference on-site, the entire conference will be held in OnLine mode, using a videoconferencing system and virtual meeting rooms.
