

12th International Conference on Computational Collective Intelligence ICCCI 2020

30 November – 3 December 2020, Da Nang, Vietnam

IWCIM 2020

International Workshop on Computational Intelligence for Multimedia Understanding

at the 12th International Conference on Computational Collective Intelligence (ICCCI 2020)

Da Nang, Vietnam, 30 November - 3 December 2020

Conference website: <http://www.iccci.pwr.edu.pl/>

Workshop Organizers

Behçet Uğur Töreyn

Informatics Institute, Istanbul Technical University (ITU), Istanbul, Turkey

E-mail: toreyn@itu.edu.tr

Maria Trocan

Institut Supérieur d'Électronique de Paris (ISEP), Paris, France

E-mail: maria.trocan@isep.fr

Davide Moroni

Institute of Information Science and Technologies, National Research Council of Italy (CNR), Pisa, Italy

E-mail: davide.moroni@cnr.it

Objectives and topics

The International Workshop on Computational Intelligence for Multimedia Understanding (IWCIM) is the annual workshop organized by the working group Multimedia Understanding through Semantics, Computation and Learning (MUSCLE) of the European Research Consortium for Informatics and Mathematics (ERCIM). This year, IWCIM takes place as a satellite workshop to ICCCI'2020.

Multimedia understanding is an important part of many intelligent applications in our social life, be it in our households, or in commercial, industrial, service, and scientific environments. Analyzing raw data to provide them with semantics is essential to exploit their full potential and help us managing our everyday tasks. Nowadays, raw data normally come from a host of different sensors and other sources, and are different in nature, format, reliability and information content. Multimodal and cross-modal analysis are the only ways to use them at their best. Besides data analysis, this problem is also relevant to data description intended to help storage and mining. Interoperability and exchangeability of heterogeneous and distributed data is a need for any practical application. Semantics is information at the highest level, and inferring it from raw data (that is, from information at the lowest level) entails exploiting both data and prior information to extract structure and meaning. Computation, machine learning, statistical and Bayesian methods are tools to achieve this goal at various levels

The scope of IWCIM 2020 includes, but is not limited to the following topics:

- Multisensor systems
- Multimodal analysis
- Crossmodal data analysis and clustering
- Mixed-reality applications
- Activity and object detection and recognition
- Text and speech recognition
- Multimedia labeling, semantic annotation, and metadata
- Multimodal indexing and searching in very large data-bases
- Big and Linked Data
 - Search and mining Big Data
 - Large-scale recommendation systems
 - Multimedia and Multi-structured data
 - Semantic web and Linked Data
- Case studies

Important dates

Due to the COVID-19 pandemic the conference date was postponed to 30 November - 3 December 2020
The second round of submitting and reviewing is organized:

Submission of papers: **1 June 2020 (Hard deadline)**
Notification of acceptance: **1 July 2020**
Registration & payment: **15 July 2020**
Camera-ready papers: **15 July 2020**
Conference date: **Nov. 30 - Dec. 3, 2020**

Program Committee (to be invited)

Enis Cetin, Bilkent University, Turkey and UIC, USA
Michal Haindl, Institute of Information Theory and Automation of the CAS, Prague, Czech Republic
Andras L. Majdik, MTA SZTAKI - Institute for Computer Science and Control, Hungarian Academy of Sciences, Budapest, Hungary
Cristina Ribeiro, INESC TEC- Faculty of Engineering, University of Porto, Porto, Portugal
Emanuele Salerno, Institute of Information Science and Technologies, National Research Council of Italy (CNR), Pisa, Italy
Ales Prochazka, University of Chemistry and Technology, Prague, Czech Republic
Anna Tonazzini, Institute of Information Science and Technologies, National Research Council of Italy (CNR), Pisa, Italy
François-Xavier Coudoux, Département Opto-Acousto-Electronique of IEMN, UPHF, France
Gabriele Pieri, Institute of Information Science and Technologies, National Research Council of Italy (CNR), Pisa, Italy
Gerasimos Potamianos, University of Thessaly, Greece
Gorkem Saygili, Department of Biomedical Engineering, Ankara University, Turkey
Josiane Zerubia, INRIA, France
Maria Antonietta Pascali, Institute of Information Science and Technologies, National Research Council of Italy (CNR), Pisa, Italy
Marie-Colette Vanlieshout, CWI, Amsterdam, Netherlands
Marco Reggiannini, Institute of Information Science and Technologies, National Research Council of Italy (CNR), Pisa, Italy
Nahum Kiryati, Tel Aviv University, Israel
Raja Chiky, Institut Supérieur d'Électronique de Paris (ISEP), Paris, France
Rozenn Dahyot, Trinity College Dublin, Ireland
Sara Colantonio, Institute of Information Science and Technologies, National Research Council of Italy (CNR), Pisa, Italy
Shohreh Ahvar, Institut Supérieur d'Électronique de Paris (ISEP), Paris, France
Tamás Szirányi, SZTAKI - Institute for Computer Science and Control, Budapest, Hungary

Submission

All contributions should be original and not published elsewhere or intended to be published during the review period. Authors are invited to submit their papers electronically in pdf format, through EasyChair. All the special sessions are centralized as tracks in the same conference management system as the regular papers. Therefore, to submit a paper please activate the following link and select the track: ***IWCIM 2020: International Workshop on Computational Intelligence for Multimedia Understanding***.

<https://easychair.org/conferences/?conf=iccci20200>

Authors are invited to submit original previously unpublished research papers written in English, of up to 12 pages, strictly following the LNCS/LNAI format guidelines. Authors can download the Latex (recommended) or Word templates available at [Springer's web site](#). Submissions not following the format guidelines will be rejected without review. To ensure high quality, all papers will be thoroughly reviewed by the IWCIM 2020 Program Committee. All accepted papers must be presented by one of the authors who must register for the conference and pay the fee. The conference proceedings will be published by Springer in the prestigious series LNCS/LNAI (indexed by ISI CPCI-S, included in ISI Web of Science, EI, ACM Digital Library, dblp, Google Scholar, Scopus, etc.).

COVID-19 pandemic issues

The ICCCI 2020 organizing committee decided to firmly organize the conference on the scheduled date from November 30 to December 3, 2020 on-site in Da Nang.

If, due to the COVID-19 pandemic, any of the authors will not be able to come to Vietnam, the organizing committee will provide them with the opportunity to present their papers online.

However, if the restrictions do not allow to organize a conference on-site, the entire conference will be held in OnLine mode, using a videoconferencing system and virtual meeting rooms.
