

CCINLP 2021

Special Session on Computational Collective Intelligence and Natural Language Processing

at the 13th International Conference on Computational Collective Intelligence (ICCCI 2021)

Rhodes, Greece, 29 September – 1 October 2021

Conference website: <http://www.iccci.pwr.edu.pl/>

Special Session Organizers

Prof. Ismaïl Biskri

Department of Mathematics and Computer Science
University of Québec à Trois-Rivières, Canada
E-mail: ismael.biskri@uqtr.ca

Prof. Nadia Ghazzali

Department of Mathematics and Computer Science
University of Québec à Trois-Rivières, Canada
E-mail: nadia.ghazzali@uqtr.ca

Objectives and topics

Today, people working in Natural Language Processing domain are often members of interdisciplinary teams, including computer scientists, experts in artificial intelligence, mathematicians, statisticians, logicians, linguists, philosophers, cognitive scientists, cognitive psychologists, psycholinguists, anthropologists and neuroscientists, among others. Natural Language Processing is not just a subfield of computer science, information systems, information science, information engineering, and artificial intelligence. It is, also, connected to cognitive sciences through the development of cognitive theories.

We can see Natural Language Processing divided into two parts: (1) its theoretical descriptions and implementations; (2) its real-world applications. The theoretical aspect includes philosophical hypothesis, psychological hypothesis, linguistics methods as semantics, syntax, morphology, etc., or numerical methods as classification, neural networks, Naive Bayes, deep learning, etc. At the present stage of research, there still gaps between theoretical approaches, computer implementations and real-world applications. There are many computer applications without any solid theoretical foundations, and there are many theoretical methods with no computer implementation and real-world applications. Theoretical Methods and computational implementations for the Natural Language Processing must take into account this epistemological chain for to lead to effective, robust and reliable systems.

Papers and contributions are encouraged for any work relating to Natural Language Processing and its applications. Topics of interest may include (but are in no way limited to):

- Philosophy of language – new developments,
- Cognitive semantics,
- Logics of language,
- Language modeling,

- Computational linguistics (lexicology; morphology; syntax; semantics),
- Information extraction,
- Domain ontologies, linguistic ontologies,
- Knowledge processing,
- Translation,
- Clustering,
- Classification
- Text-mining,
- Deep-Learning,
- Conversational agents,
- Chatbots,
- Natural language for smart services,
- etc.

Important dates

Submission of papers: **15 May 2021 (Hard deadline)**

Notification of acceptance: **15 June 2021**

Camera-ready papers: **30 June 2021**

Registration & payment: **30 June 2021**

Conference date: **29 September – 1 October 2021**

Program Committee (to be invited)

Ismaïl Biskri, Université du Québec à Trois-Rivières, Trois-Rivières, Canada

Mounir Zrigui, Université de Monastir, Monastir, Tunisia

Anca Pascu, Université de Bretagne Occidentale, Brest, France

Éric Poirier, Université du Québec à Trois-Rivières, Trois-Rivières, Canada

Fatiha Sadat, Université du Québec à Montréal, Montréal, Canada

Adel Jebali, Concordia University, Montréal, Canada

Eva Hajiova, Charles University, Prague, Czech Republic

Khaled Shaalan, British University, Dubai, United Arab Emirates

Vladislav Kubon, Charles University, Prague, Czech Republic

Louis Rompré, Cascades, Kingsey-Falls, Canada

Rim Faiz, IHEC, Carthage, Tunisia

Thang Le Dinh, Université du Québec à Trois-Rivières, Canada

Usef Faghihi, Université du Québec à Trois-Rivières, Canada

Amel Zouaq, École Polytechnique, Montréal, Canada.

Submission

All contributions should be original and not published elsewhere or intended to be published during the review period. Authors are invited to submit their papers electronically in pdf format, through EasyChair. All the special sessions are centralized as tracks in the same conference management system as the regular papers. Therefore, to submit a paper please activate the following link and select the track: **CCINLP 2021: Special Session on Computational Collective Intelligence and Natural Language Processing**

<https://easychair.org/conferences/?conf=iccci20210>

Authors are invited to submit original previously unpublished research papers written in English, of up to 13 pages, strictly following the LNCS/LNAI format guidelines. Authors can download the Latex (recommended) or Word templates available at [Springer's web site](#). Submissions not following the format guidelines will be rejected without review. To ensure high quality, all papers will be thoroughly

reviewed by the CCINLP 2021 Program Committee. All accepted papers must be presented by one of the authors who must register for the conference and pay the fee. The conference proceedings will be published by Springer in the prestigious series LNCS/LNAI (indexed by ISI CPCI-S, included in ISI Web of Science, EI, ACM Digital Library, dblp, Google Scholar, Scopus, etc.).
